

# NatureSense Aqua+

O pavimento cativante com proteção adicional contra a água.

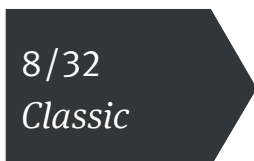

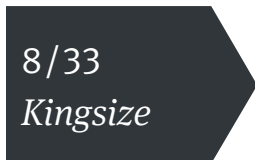

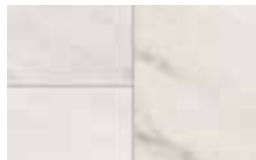

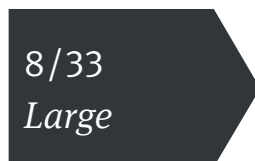

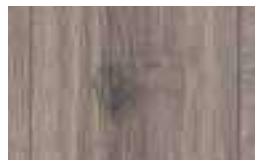

O nosso pavimento premium NatureSense Aqua+ não tem medo da água. A fórmula especial de proteção contra a dilatação da placa central, em combinação com o nosso sistema de instalação Aqua CLIC it! à prova de água, tornam-no no pavimento ideal para divisões privadas e comerciais com utilização intensiva e grandes requisitos de limpeza. Com as propriedades da sua superfície robusta e proteção dupla contra a água, é uma excelente alternativa aos azulejos e é igualmente adequado para átrios de hotéis, escritórios e casas de banho.

*Três boas razões*  
para um pavimento NatureSense Aqua+

- ✓ Resistente à água durante 72 horas
- ✓ Superfície resistente ao desgaste
- ✓ Placa central escura com uma fórmula especial de proteção contra a dilatação
